ARCHITECTURAL MAHOGANY LIFT AND SLIDING DOORS  
DADE COUNTY HURRICANE IMPACT CERTIFIED

Photograph by Claudine Camillo

Our lift and slide door system can be scaled up to a frame size of 40 feet wide by 11 feet high. The proprietary recessed threshold projects only 3/16" above the finished floor creating, an almost seamless transition from inside to outside. The doors can be designed to meet at a 90° corner, pocket right into the walls and be fully motorized – the design possibilities are vast.

Our team is full of experts who are continually developing new concepts and systems that push the boundaries of what is possible.
